since the elections.

WE are advised by our neighbor that the "people's ticket had a decided victory Custom House Statistics over that of the Ministry" at the election on Monday week. "It has been a Waterloo defeat for the Government candidates, "and it has been a more emphatic rebuke than any the Ministry have ever received in this city." They also inform us that "every influence was brought to bearpersuasion,"-" but the independent vot- ness and transactions of this office, with the Statis ments or threats of the Ministerial agents." No. 1. Imports at all the Ports. In "our" Semi-Weekly of Feb. 8th, we find that "The influence of the Kuokoa and Commercial Advertiser in espousing the cause of the successful candidates was justly conceded to have been felt in this election." This last important fact was said to have taken place in front of the residence of Mr. H. M. Whitney. The influence of the Commercial Advertiser must have been immense, for on the 3d of February they inform us that the number of tickets was sixteen, and that "there is no regular ticket representing any particular party, faction or principle"-"each prominent candidate seems to have the plan, or perhaps their friends have done so for them, of putting the names of all this port of \$160,637 52, and a total decrease : the other candidates on their different Imports of \$165,033 80. Mort Surra,

It will be seen that the Cabinet, however desirous they may have been to grant any subsidy to steamers, are entirely controlled by the terms of the Ap DIRECTOR OF THE GOVERNMENT PRESS propriation Bill, by the decision of the Privy Conneil. It is also generally known that the Webb steamers have not, up to the present moment, made any fixed connection with the Australian Colonies, and none at all except on speculation. Theyhave, certainly, gone to Sydney, and we believe on one or two occasions have visited Melbourne. The subsidy, however, and all the encouragement they have received, have been from New Zealand, and actually, they have only been running to New Zealand, though, as we have before said, as a matter of speculation, they have visited certain ports in Australia. It is, consequently, a matter of question whether according to the terms of the appropriation this Government, "with the consent of a majority of the Privy Council," would be authorized to give them the subsidy in question. At any rate, our readers will take notice that it is more than probable-saying nothing in regard This completes the returns from all which are offered free here—that the fifty the districts except those on Kauai, from or hundred letters and the equal number whence no communications have been had of papers awaiting dispatch from here by the steamer Nebraska, will be refused transmission.
